

# LEARNING PODS

*Your moving learning space*

*Your moving  
learning space*

Our wheel-based Pod gives you the flexibility to show, teach or test wherever you want – your office, shop or factory.

Seating 10 delegates in comfort, it has a large raised platform for presentations. Our mobile classroom has all you need in a small footprint.

The on-board IT can speedily connect to your network and power supply.

## *Show*

The Pod is perfect for meetings, presentations, as a marketing suite or exhibition unit. Quick to set up, and with a small footprint, it's ideal for a new system roll-out or product demonstration.

## *Teach*

It has all the teaching tools you would expect from a high-quality training room. Its ergonomic environment is climate controlled ensuring delegate comfort all year round.

## *Test*

It works perfectly as a mobile testing centre, is versatile and easily moved to different locations. Currently used by major organisations as nationwide assessment centres.

- 12 hi-spec PCs and monitors
- Large 52" screen for presentations
- Training and presentation tools
- Fully climate controlled
- Small footprint - just four car park spaces
- Simply connects to your local network
- Easily moved in any emergency
- Book from one week to a year

*A learning space when  
you don't have one*

The Pod has been 'designed for learning'. It's an adaptable and scalable solution with real cost savings and the convenience for delegates by taking the event to them.

Every aspect of the set-up is cared for by our operations team, which provides reliable 24/7 support.
